Riyada Center is a specialized center dedicated to supporting children through behavioral therapy, speech and language therapy, and occupational therapy. The brand identity is designed to create a welcoming, engaging, and supportive environment that reflects the center's mission of helping every child reach their full potential.

The logo concept is inspired by communication, development, and growth. Through simple and playful forms, the identity represents the journey each child takes toward building confidence, expressing themselves, and developing essential life skills.

At its core, Riyada Center believes that every child develops in their own unique way. The brand reflects this philosophy by celebrating growth, individuality, and the power of guidance, support, and encouragement.

Building Growth Through Play

The visual identity is inspired by the way children learn, grow, and develop through exploration and play. Simple geometric shapes become the foundation of a visual language that represents the center's three core services.

Each shape embodies a different aspect of a child's developmental journey while working together as one cohesive system—reflecting the collaborative approach that Riyada Center provides for every child.

Behavior Guide

Behavior Guide represents emotional growth, self-regulation, and positive behavioral development. Inspired by the circle, the character symbolizes balance, flexibility, and a supportive environment where children can build confidence and develop healthy social interactions.

Language Explorer

Language Explorer represents communication, expression, and the discovery of language. Inspired by the triangle, the character symbolizes direction, curiosity, and growth. It reflects the process of helping children develop speech and language skills, build confidence in expressing their thoughts,

Skill Builder

Skill Builder represents independence, capability, and practical development. The square form conveys stability and structure, mirroring the role of occupational therapy in helping children strengthen motor skills, improve coordination, and gain the confidence needed to navigate everyday
